To whom it may concern

Since opening the representation office of Macao Government Tourism Office (MGTO) in Russia in 2013, we have been closely cooperating with Travel Media. Through these years the company has proven to be a universal partner, offering a wide specter of services and assisting us greatly in promoting Macao as a highly attractive travel destination for Russian tourists.

The most valuable element of our cooperation was the opportunity to closely and effectively interact with a broad section of Russian travel trade community. Travel Media and Maria Shankina in particular has been providing a direct communication channel between our office and thousands of managers and specialists working for Russian travel companies from all over the country. This channel is supported via perfectly composed and edited newsletters, excellently organized professional B2B events, PR and marketing activities and other valuable promotional assets.

We highly recommend Travel Media as a great PR, marketing and sales representation partner in Russia.
